

ClickDimensions Marketing Services

Understanding that technology alone can't serve the needs of modern marketers, ClickDimensions offers a full range of marketing services designed to help customers achieve their marketing goals and execute their strategy more efficiently and effectively while eliminating the need for additional full-time hires. ClickDimensions marketing services are delivered by ClickDimensions- and Dynamics-certified experts to help you get the most out of your investment in our technology.

ClickDimensions offers three distinct categories of marketing services to ensure you get the results you need. You choose the mix of services that makes the biggest impact for your team.

Advisory Services	Our marketing solution architects provide a mix of learning paths, working sessions and regularly-scheduled check-ins where we assist in assessing performance and progress towards your stated business outcomes. In addition, our team will help you design marketing programs, such as campaign management and lead scoring models, to achieve your marketing goals.
Execution Services	Our most successful customers spend their time focused on their marketing strategy and let our team of expert ClickDimensions users execute their campaigns and day-to-day marketing automation tasks. Our team can build, test, deploy and report on any type of function within the ClickDimensions product portfolio.
Learning Services	Our training team can work with you to create specific personalized learning paths based on your desired outcomes. We can weave together both initial and ongoing training options across your team.
